

KENAN ALJABI

COMPUTER ENGINEER

Profile

About Me

Fresh Computer Engineering graduate with a strong interest in software development and backend engineering. Currently developing my skills in Python and gaining hands-on experience with backend development, databases, APIs, and web technologies. Passionate about building practical software solutions, learning new technologies, and continuously improving my technical skills. A motivated and adaptable individual seeking an entry-level opportunity where I can contribute to a professional team, gain real-world experience, and grow as a software engineer.

Education

● 2022 - 2026

Bachelor of Science in Computer Engineering
Işık University, Istanbul

Achievements

HTML, CSS, and Javascript for Web Developers
Coursera — Johns Hopkins University | 2023

Meta Back-End Developer Professional Certificate
Coursera — Meta | 2026

Programming in Python
Coursera — Meta | 2026
